

Planning for the New America

Purpose

- **Credibility**
 - Increase trust with your community
- **Effectiveness**
 - Create plans that meets all of your community's needs
- **Ethical Obligation**
 - Recognize diverse needs of your community
 - Planners serve the entire community

Drivers of Implicit Bias

- How do **institutions** like racism and patriarchy drive implicit bias in planning?
- Does this implicitly **internalize** racism and patriarchy into projects, programs and plans?
- Do the above points create a sense of **normalcy** in planning decisions?

Change the Norm

- Recognition
 - Past is not prologue but must be read
- Accountability
 - Take ownership
- Action
 - Right the wrong

Import Data

- Choose a data source to import from
 - Special Files - Files from a directory or archive
 - Music - Raster files from a directory containing a metadata
 - PostGIS - Tables from PostGIS database
 - Oracle - Tables from Oracle database (install plugin and drivers)
 - SQL Server - Tables from Microsoft SQL Server database (install plugin and drivers)
- Configure the data source

Choose a file or directory: Browse...
- Specify the target for the import
